

Battery information

Related information		Related data
1	Manufacturer (name /address/mail contact):	SHENZHEN ERER TECHNOLOGY CO., LTD ; 1310, No. 122 Minsheng Avenue, Shangcun Community, Gongming Street, Guangming District, Shenzhen, Guangdong, P.R. China ; szxuesong@163.com
2	Battery model	EE18650
3	Battery batch	2610
4	Place of manufacturer (geographical location of plant)	1310, No. 122 Minsheng Avenue, Shangcun Community, Gongming Street, Guangming District, Shenzhen, Guangdong, P.R.
5	Date of manufacture (month, year)	1026
6	Weight	39,3
7	Capacity	1300mAh
8	Nominal voltage	3.7V
9	Chemistry	Lithium nickel manganese cobalt oxide (NMC)
10	Hazardous substances presents in the battery (other than mercury, cadmium or lead)	Cobalt lithium manganese nickel oxide, Carbon Black, Lithium hexafluorophosphate, Nickel
11	Usable extinguishing agent	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use of water spray when fighting fire may be inefficient.
12	Critical raw materials present in the battery in a concentration of more than 0,1% weight by weight	Cobalt lithium manganese nickel oxide, Carbon Black, Polyvinylidene Fluoride (PVDF), Graphite, Carboxymethyl cellulose, Styrene-butadiene rubber (SBR), Polyethylene, Phosphate(1-), hexafluoro-, lithium, Copper, Aluminium, Nickel, Iron, P VC (Chloroethylene, polymer)
13	Symbol for separate collection of batteries	
14	Declaration of Conformity (DoC)	made by manufacturer of battery, must be available under QR code
